PRESENTS

September 17th - 19th, 2012

8:00 a.m. - 5:00 p.m.

Registration Fee: \$335.00

An incredible comprehensive inter-active classroom and hands-on program taught by instructors with in depth experience in both engine and truck operations. This unique course will tune you up as well as having plenty to take back with you in sharing the experience with your department and its members. The 3 day program is filled with hands-on activities in the areas of aerial and tower ladder operations, tactical and operational positioning, truck tactics and strategies, tool usage, ventilation techniques on flat roofs and pitched roofs, all aspects of techniques and maneuvers in vent, enter, search, forcible entry, power saws, scenarios and so much more. This hard hitting program is for all ranks of the fire service to enjoy and share ideas with instructors who teach from the heart.

To register, contact Academy Secretary Diane at (815) 372-4042, or register online at www.rfa2100.org
