RECEIVED
NOV 07 2011
TOWNSHIP OF CONCORD
TOWNSHIP MANAGER

November 3, 2011

Concord Township
43 Thorton Road, Glen Mills
PA-19342

Attn: Mr. Robert J Willert, Asst. Township Manager

Subject: Smithbridge Road (SR 3046) over Webb Creek, Delaware County

Mr. Willert:

The Pennsylvania Department of Transportation plans to make improvements to a structure in your township next year and as part of our early coordination efforts I would like to inform you of this upcoming construction activity. Due to its deteriorated status, a full replacement is proposed for the Smithbridge Road (SR 3046) structure over Webb Creek, Delaware County; see the attached location map and photos. Construction is anticipated to begin in the spring of 2012 and last approximately four weeks.

The structure carries Smithbridge Road (SR 3046) over Webb Creek in Concord Township, Delaware County. The structure is 20 feet long and has a deck area of 640 square feet. The proposed work for this project involves the replacement of existing structure with a reinforced concrete slab. All work will take place within existing PennDOT Right-of-Way and roadway approach work will be limited to the milling and resurfacing of pavement as needed to match the grade of the new structure. The existing footprint of the structure will not be altered as a result of the proposed work.

This advanced notification of the impending bridge construction is intended to give you and your township ample time to communicate this information to your local emergency service providers, the school district, municipal services, authorities and recreation, and all affected local residents. The contractor will be required to coordinate with these entities prior to implementing the temporary traffic control over the bridge; however, that timeframe will be far more condensed.

If you or any citizens of Concord Township have any questions or concerns regarding this project or would like to schedule a meeting to discuss the project in more detail, please contact Mr. Narayana Velaga, PE at 610-205-6873 or c-nvelaga@state.pa.us. I hope this advanced notification helps minimize any inconvenience during the proposed improvements.

Sincerely,

Lester C. Toaso
